

CASE STUDY

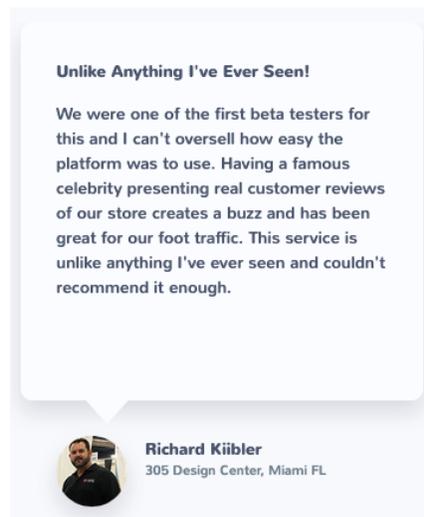

Megabiz recently published a Celebrity video for 305 Design Center on February 10, 2019 featuring TV and Film Actor Corbin Bernsen from LA Law, Billions and got over 5,200 views in 7 days on Facebook and received over 60 plus calls from potential new clients in their area.

Social media is the best way to connect with fans, increase followers and potential new customers, however 305 Design Center just didn't know where to start. They didn't have a real presence on any of the popular social networks, and due to this they were missing out on an audience that's ready and willing to connect to their brand. Megabiz proved to them that using social media and video marketing for a small business doesn't have to be scary or costly experience.

305 Design Center is a local furniture store in South Miami, FL with 2 locations. They specialize in exotic and unique furniture from Asia and the Far East. Much like many other small businesses, they struggled with creating quality social media content, creating buzz and engagement with their targeted audience on the social networks. They experienced the same issues that many small businesses or brands face today. Not enough time, being too busy with the day-to-day running of their business and not having a dedicated "in-house" digital marketing expert on the payroll. All these issues make creating engaging content and publishing it on a "regular" basis just an almost impossible task. This is when Richard from 305 Design Center first heard about Megabiz from a friend and decided to take the plunge and sign up for the **FIRST MONTH FREE** offer.

Testimonial

Just from the recently published video, they have received over **60 calls** and **20+** walk-in customers who mentioned having seen the celebrity video posted by 305 Design Center on Facebook.

These customers could not believe that a local furniture business such as 305 Design Center could get a famous celebrity such as Corbin Bernsen promoting their business. Many of these customers had just seen **Corbin Bernsen** on the popular show **Billions** and were fans of his work. Richard mentioned that this resulted in sales with just one sale being over **\$5,000** to a client who had just bought a house.

Here is what **Richard Kiibler** - Owner, 305 Design Center wrote:

“The \$299 a month is the best investment I’ve made in social media or video marketing since I started this business, and we are happy we get such great results every month”.

See the Video below to hear what **Richard Kiibler - Owner, 305 Design Center** had to say about Megabiz:
